

OPT2Phos

DENSITY:

12.169 lbs per gallon

GUARANTEED ANALYSIS:

Total Nitrogen (N)	4%
Available Phosphate (P ₂ O ₅)	35%
Soluble Potash (K ₂ O)	0%

Derived from Urea and Phosphoric Acid.

NONPLANT FOOD INGREDIENT:

Humic Acid derived from leonardite

HANDLING: In case of accidental exposure, flush with water. Temporary staining may occur. Protective gloves and eye protection recommended.

DESCRIPTION: Opt2Phos is a highly complexed Phosphorus designed to be exceptionally efficient in the root zone. Our complexing process, chelators and carbons help prevent Opt2Phos from tying up in the soil thus making it much more available to the plant.

DIRECTIONS FOR USE:

Use alone or with conventional fertilizers and nutrients. Use at least 10 days after soil fumigation. Use with all irrigation systems, including fan jets, drip, pivot or sprayer.

APPLICATION RATES:

Soil Application: Apply 2 to 10 gallons of Opt2Phos per acre. Proper application rates and frequency should be determined by specific conditions and plant requirements

COMPATIBILITY:

OPT2Phos is compatible with most fertilizers, pesticides, herbicides and defoliants. It is always recommend to do a small jar test before large volume mixing. When tank mixing with other chemicals, it is the responsibility of the end-user to assure compatibility and safety.

KEEP AWAY FROM CHILDREN.

NOT FOR HUMAN CONSUMPTION

Note: Buyer assumes all risk of use, storage and handling of this material. Neither seller nor its agent make any warranty, expressed or implied, concerning this product, except in conformity with statements on the label.
